CEO/Manager**

Annual Meeting Set for April 9, 2015

It sure seemed that 2014 just zipped by, and here we are already in the new year with the annual meeting scheduled for April 9, 2015, at the American Legion Hall in Loyal, Wisconsin, starting at 9:30 a.m.

The annual meeting is an important event for the cooperative. Members will hear reports about the cooperative and the electric industry, review financials, conduct business, and elect their representatives to serve on the board of directors.

The members will be asked to elect three directors, for three-year terms. Directors whose terms are expiring this year are Chuck Bena from the Town of Mead area, Herman Seebandt from the Town of Weston area, and Marvin Verkuilen from the Town of Worden area. All three directors are eligible for re-election. Nominations for the director positions are taken from the floor of the meeting.

The cooperative's bylaws establish the minimum

qualifications for being a director. A copy of the bylaws is available on the cooperative's website at www.cecoop.com or by contacting the business office at 715-267-6188. If you have any additional questions about becoming a director, please contact Tim Stewart, CEO/GM, at the business office.

Directors are expected to attend monthly board meetings; represent the cooperative in state, regional, and national affairs; and take advantage of NRECA educational opportunities such as classes, seminars, and workshops. Directors need to read, study, and analyze a lot of information throughout the month to keep informed on the electric industry as a whole. Directors will spend approximately 20 to 35 days a year in performance of their duties.

Plan to attend the annual meeting, enjoy a nice meal, register for door prizes, and help conduct the business of your electric utility. Member involvement is critically important to the success of your cooperative. ■

Scholarship Applications Now Available

Clark Electric Cooperative is once again offering a scholarship opportunity to graduating students from participating high schools in our service area. One \$750 scholarship will be available for a student from each school or group of schools in our service area.

To be considered for the scholarship, the student's parent or legal guardian must be a member of Clark Electric Cooperative and currently receive electric service from Clark Electric Cooperative.

The Clark Electric Cooperative scholarship program began in 1995,

and since its inception we have provided more than \$180,000 in scholarships to area students. An independent scholarship committee judges the applicants based upon merit.

Giving back to the community is one of the cooperative principals; furthering the education of our area youth is another. Clark Electric is proud to help these fine young people meet their educational goals.

Scholarship applications are available from your high school counselor, online at www.cecoop.com, and at our office located at 124 N Main St., Greenwood. All applications must be returned to the cooperative office by 5 p.m. Monday, March 9, 2015.

If you have any questions, please contact Tracy Nelson at 715-267-6188 or 1-800-272-6188.

These scholarships are financed through the Federated Youth Foundation Scholarship Program, which is funded from unclaimed capital credits. Federated Youth Foundation (FYF) is a non-profit charitable foundation serving cooperatives across Wisconsin. ■

Schools Eligible for Scholarship Consideration

Abbotsford High School, Colby High School, Granton High School, Greenwood High School, Loyal High School, Neillsville High School, Owen-Withee High School, Spencer High School, Thorp High School, Stanley High School.

One Scholarship Between These Grouped Schools:

Group 1: Stratford High School, Columbus High School, Osseo-Fairchild High School, Abbotsford Christian Academy

Group 2: Marshfield Senior High School, Medford High School, Gilman High School, Pittsville High School, Home

Adler-Clark Electric Community Commitment Foundation Awards \$42,730

The Adler-Clark Electric Community Commitment Foundation recently awarded \$42,730 to 26 different community-based projects located throughout the Clark Electric Cooperative service area.

Tim Stewart, chief executive officer of Clark Electric Cooperative and one of the trustees of the Adler-Clark (ACE) Electric Community Commitment Foundation, indicated that "The purpose of the ACE-Community Commitment

Foundation is to support programs and events which enrich the lives of people of Clark County and the surrounding area communities. Our mission is to invest in the future of the Clark County area by helping create opportunity for philanthropy and community enrichment. We are pleased to be a part of these community enrichment programs."

The ACE-Community Commitment Foundation was established in 2004 by Clark Electric Appliance and

Satellite, Inc., to strengthen local communities by helping not-for-profit and community organizations fund projects that will enhance the quality of life of local residents of this area. To date, the Foundation has awarded \$341,105 for community enrichment projects.

Clark Electric Cooperative is a not-for-profit electric utility that serves 7,900 members in Clark, Chippewa, Jackson, Marathon, Taylor, and Wood counties. ■

Can You Help Us Find These Former Clark Electric Members?

The following members have capital credit refunds due them, but their whereabouts are unknown. If you know the address of anyone on this list, please let us know at Clark Electric Cooperative, 124 N. Main Street, P.O. Box 190, Greenwood, WI 54437, (715) 267-6188 or (800) 272-6100. If we cannot find these members, the unclaimed capital credits will be forfeited and assigned to the Federated Youth Foundation to be used for scholarships and other educational programs.

Energy Efficiency Tip of the Month

Did you know that 90 percent of the energy used to operate a washing machine comes from using hot water? A simple switch from hot to cold can save a great deal of energy! Also, consider air drying or even line drying to save even more household energy.

HEATING SEASON IS IN FULL SWING!

GEO THERMAL

When COMFORT Matters

Looking for an efficient, cost effective and environmentally friendly heating and cooling system? A geothermal heat pump is the greenest system available. Geothermal systems don't emit carbon dioxide, carbon monoxide or other greenhouse gasses that can be harmful to the environment or, more importantly, your family. Save money and rest easy knowing your family will be comfortable and safe.

Contact Greg today for your heating system check-up.
