

CAPITAL CREDIT RETIREMENT

55th consecutive year of benefits from your cooperative demonstrating the third Cooperative Principle

**Clark Electric
Cooperative**

Your Touchstone Energy® Partner 

Tim Stewart,
CEO/Manager

It is my privilege to announce that the Clark Electric Cooperative Board of Directors approved a \$841,978 capital credit general retirement to be made this year. This marks the 55th consecutive year that a capital credit retirement has been made totaling in excess of \$24,358,697 being returned to the membership.

As a rural electric cooperative member, you are part owner of Clark Electric Cooperative. Basically, you've pooled money (through paying

your electric bill) with thousands of other members and created equity for your rural electric cooperative to deliver you electricity and to provide services at an affordable cost.

As a locally owned business, Clark Electric Cooperative is committed to the people, businesses, and communities we serve. As we are a member-owned, operated, and not-for-profit utility, one of the fundamental principles we follow is a commitment to returning your investment. This is done in the form of capital credits. Since Clark Electric Cooperative operates on a not-for-profit basis, we return margins to members and former members through the capital credit allocation and retirement process. The amount returned is in relation to the individual member's transactions with the cooperative. Capital credits are returned to cooperative members on a rotating schedule. Currently the cooperative is retiring 4.35 percent of our allocated capital and applying that amount against the oldest capital credits assigned to the members. This retirement will affect the cooperative's capital credits assigned in 1995 and the Dairyland Power Cooperative capital credits assigned for 1989 and 1990.

Our goal is to provide you with electricity at a price that is as close to cost as possible. We don't aim to maximize profits like investor-owned utilities do. This way, more of your money stays in your pocket—up front. In short, you are receiving a vital resource, electricity, from a business owned and operated by you, your friends, and neighbors. Working together, we provide you with the highest level of service we can while striving to keep your electric bills affordable—the best possible service at the best possible price.

And that's the cooperative difference!

Clark Electric Cooperative offers easy, affordable way to invest in solar energy

As I have reported in past articles, the Clark Electric Cooperative Board of Directors approved the construction of a 53.3 kW solar garden which is located adjacent to the cooperative's headquarters facility just west of Greenwood. The solar garden became operational in July 2015.

This community solar project provides members the

opportunity to purchase local renewable energy through a cooperative program. This in turn allows members to take more control of their power choices. Through aggregation, we are able to offer a highly

We still have a limited number of subscription units available...

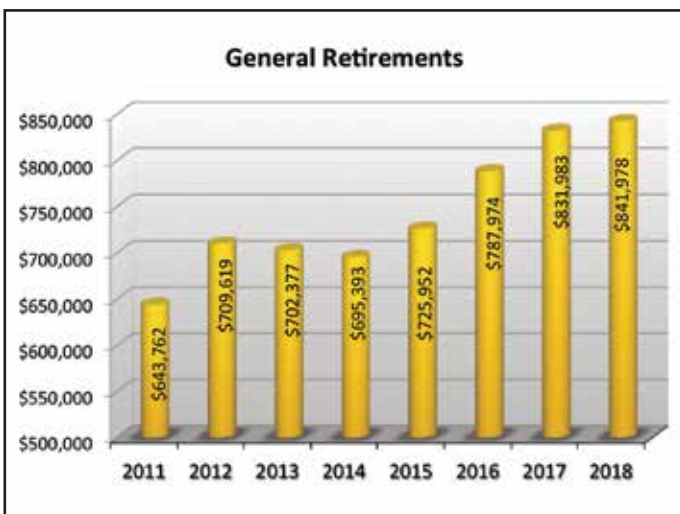

competitive solar product to our membership.

The community garden is designed for those members interested in an affordable option to purchase renewable solar energy. Members have the opportunity to purchase a subscription unit and receive credit equal to their share of the array's output on their electric bill.

By utilizing a solar garden approach, issues such as inadequate space for solar panels near your home, too many trees that would block the sun at your residence, cost of a small PV array, installing panels on your rooftop, insurance, interconnection of the PV system to the grid, and unsightly panels at your residence all go away. In addition, all operations and maintenance issues would be handled by Clark Electric Cooperative. Any residential/seasonal member, regardless of whether you own or rent your home and where you live, who pays a monthly electric bill to Clark Electric Cooperative could be a potential candidate for participating in the community solar project.

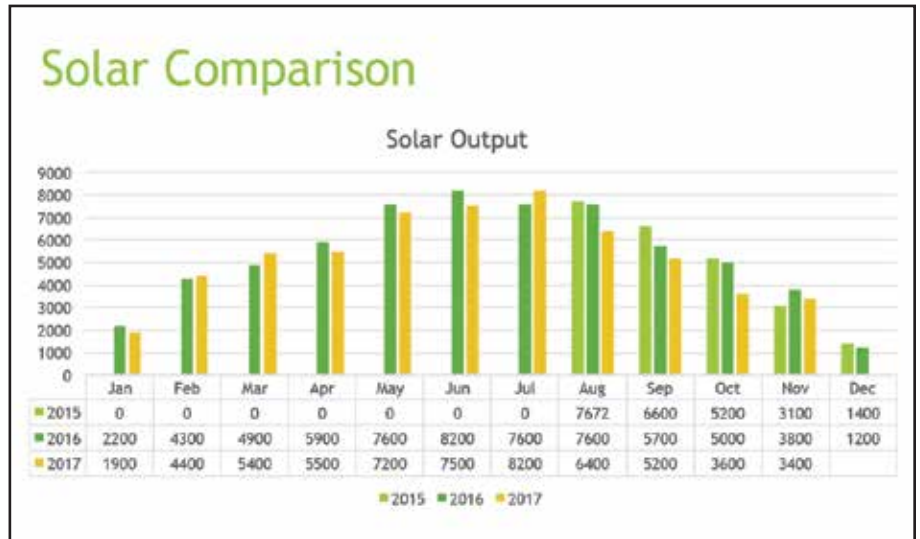

How do I participate?

It's easy. Just give us a call and request a Subscription ▶

Agreement and a list of Frequently Asked Questions. Sign and indicate how many participation units you would like to buy. Return the signed agreement, along with a payment of \$827.20 per subscription unit. Once the unit(s) are paid for, there are no fees assessed to you during the life of the agreement (22 years). You will start getting credits to offset your electric bill beginning with the month after you sign up. We still have a limited number of Subscription Units left but when they are gone, they're gone. You can also go to our website www.cecoop.com for information on the Solar Garden Project and see the actual array in real time.

ENERGY ASSISTANCE AVAILABLE

The winter heating season is underway. It's important for you to make every attempt to keep current on your electric bill. We understand that things do happen that put financial burdens on people. Certain government organizations can offer heating assistance or point you in the direction of a group that can help.

The Wisconsin Home Energy Assistance Program (WHEAP) administers the federally funded Low Income Home Energy Assistance Program (LIHEAP) and Public Benefits Energy Assistance Program. LIHEAP and its related services help more than 230,000 Wisconsin households annually.

Eligibility

You may be eligible for weatherization services if:

- You received benefits from WHEAP or your gross income for the last three months is equal to or less than 60 percent of Wisconsin's state median income (SMI) for your family size.
- Your dwelling/apartment has not been weatherized before.
- Your household meets certain priorities that may include a high energy burden or use, an elderly or disabled member, or a child under six.

CLARK APPLIANCE & SATELLITE NAMED DISTINGUISHED GEOTHERMAL DEALER

Clark Electric Appliance and Satellite Inc. (CEAS) has received the Distinguished Dealer Award for the third consecutive year from Terra-Therm Inc. Terra-Therm Inc, a leader in geothermal heating and cooling systems, recognizes 10 dealers each year for outstanding sales, excellent customer satisfaction, technical excellence, and superior business practices.

“CEAS does superior work and has become one of the region’s top geothermal heat pump proponents,” said Arlyn Grube, regional sales manager for Terra-Therm Inc.

Terra-Therm Inc. is a geothermal and radiant floor systems distributor located in New Richland, Minnesota. Terra-Therm’s THERM GEO® geothermal heat pump is manufactured in Appleton, Minnesota. Terra-Therm Inc. specializes in technical support and supplying complete geothermal heating and cooling systems and radiant floor systems.

For more information about geothermal systems visit www.discovergeothermal.com or cecoop.com. For more information about Terra-Therm Inc. visit www.ttherm.com.

Rita Sladich, inside sales manager; Michelle Walde, assistant manager, appliance sales; Greg Shaw, HVAC manager; and Ryan Nielsen, HVAC & appliance technician.

Energy Efficiency Tip of the Month

Looking for an easy way to make your home cozier? Try using an area rug to increase the insulation levels of your floors. Area rugs are stylish and can keep cool air from entering through your floors. Your toes will thank you!

*Best Wishes in the New Year
from your friends and neighbors at
Clark Electric Cooperative*

Our offices will be closed Monday, January 1

2018

THE HEATING SEASON IS HERE!

GEOTHERMAL

When COMFORT Matters

Looking for an efficient, cost effective and environmentally friendly heating and cooling system? A geothermal heat pump is the greenest system available. Geothermal systems don't emit carbon dioxide, carbon monoxide or other greenhouse gasses that can be harmful to the environment or, more importantly, your family. Save money and rest easy knowing your family will be comfortable and safe.

CLARK ELECTRIC OFFERS SCHOLARSHIPS

Applications are due at the office Monday, March 6

Clark Electric Cooperative is once again offering a scholarship opportunity to graduating students from participating high schools in our service area. One \$500 scholarship will be available for a student from each school or group of schools in our service area.

...we have provided more than \$207,000 in scholarships to area students.

To be considered for the scholarship, the student's parent or legal guardian must be a member of Clark Electric Cooperative and currently receive electric service from Clark Electric Cooperative.

The Clark Electric Cooperative schol-

arship program began in 1995. Since its inception we have provided more than \$207,000 in scholarships to area students. An independent scholarship committee judges the applicants based upon merit.

Giving back to the community is one of the cooperative principals; furthering the education of our area youth is another. Clark Electric is proud to help these fine young people meet their educational goals.

Applications are available from your high school counselor, online at www.cecoop.com, and at our office located at 1209 W Dall-Berg Rd., Greenwood.

All applications must be returned to the cooperative office by 5 p.m. Monday, March 6, 2018.

Schools Eligible for Scholarship Consideration

Abbotsford High School, Colby High School, Granton High School, Greenwood High School, Loyal High School, Neillsville High School, Owen-Withee High School, Spencer High School, Thorp High School, Stanley High School

One Scholarship Between These Grouped Schools:

Stratford High School, Columbus High School, Osseo-Fairchild High School, Abbotsford Christian Academy

Marshfield Senior High School, Medford High School, Gilman High School, Pittsville High School, Home School Student

If you have any questions, please contact Tracy Nelson, administrative assistant at 715-267-7958 or 1-800-272-6188.

These scholarships are financed through the Federated Youth Foundation Scholarship Program, which is funded from unclaimed capital credits. Federated Youth Foundation (FYF) is a non-profit charitable foundation serving cooperative across Wisconsin.

All your needs in one place! Shop small town local!

FREEDOM IS BACK BY POPULAR DEMAND!

Virtually unlimited usage with Exede - Up to 150 GB data \$99.99/month for existing and new subscribers

So if you have been waiting, unsure what to do, now is the time 150 GB anytime day or night data with high-speed satellite internet through Clark Electric Appliance and Satellite!
