

By Tim Stewart, CEO/Manager

## CLARK ELECTRIC PARTICIPATES IN UTILITY-SCALE SOLAR

Clark Electric Cooperative

Your Touchstone Energy® Partner

**W**e are very pleased to announce that Clark Electric Cooperative, along with eight other electric cooperatives in Wisconsin, have been working together with OneEnergy Renewable of Madison to

develop 12 utility-scale solar arrays across Wisconsin. Over the next two years, the group will add 22 megawatts of new solar generation, enough to power 4,000 homes.

“We are coordinating the timing of our local solar project with other cooperatives to get a better price and return on our investment for our members. Cooperation among cooperatives is our guiding principle for this project,” said Tim Stewart, CEO/GM. “Wisconsin electric cooperatives are known for our work together to benefit members; for example, you often see co-ops assisting each other with storm recovery. This utility-scale solar project will benefit our local membership by providing renewable energy to help with the goal of decarbonization of power supply in a cost-effective way.”

The cooperative has entered into a purchases power agreement to purchase the output from the 2 mega-watt solar project located in Green Grove Town. The project

developer, One Energy Renewables, is a leading solar energy company that is experienced in site development, engineering, equipment purchasing, construction and operations of solar. The Madison-based team has developed 15 projects across Wisconsin, and another 11 in adjacent states. The site should be operational by the end of 2023.

This project is the second solar project that Clark Electric Cooperative has been involved in, the first being a 50 kW community solar array adjacent to the cooperative’s headquarter building in Greenwood.

## LINWORKER APPRECIATION DAY IS APRIL 10

**L**ineworkers are the image that usually comes to mind when thinking of Clark Electric Cooperative. National studies consistently rank power line installers and repairers among the most dangerous jobs in the country, and for good reason. They perform tasks high in the air wearing heavy equipment and working directly with high voltage. But lineworkers are up to the task. These brave people are committed to safety, as well as the challenges of the job.

When the weather gets nasty and most of us hunker inside, our linemen head out, no matter the time of day, or day of the week. Clark Electric’s lineworkers are responsible for keeping power flowing day and night, regardless of national holidays, vacations, birthdays, weddings, or other important family milestones. Beyond the years of specialized training and apprenticeships, it takes internal fortitude and a mission-oriented outlook to be a good lineworker. In fact, this service-oriented mentality is a hallmark characteristic of

lineworkers. The job requires lineworkers to set aside their personal priorities to better serve their local community.

### Family Support System

To perform their jobs successfully, lineworkers depend on their years of training, experience, and each other to get the job done safely. Equally important is their reliance on a strong support system at home. A lineworker’s family understands and supports their loved

### LINWORKER APPRECIATION DAY

We thank lineworkers for their courage and commitment to powering our community.

one’s commitment to the greater community during severe storms and outages.

This means during prolonged outages, the family and their lineworker may have minimal communication and not see each other for several days. Without strong family support, this challenging job would be much more difficult.

### Community Commitment

At Clark Electric Cooperative, our lineworkers’ service-focused mentality often extends beyond commitment to their work at the co-op. Lineworkers are often familiar figures in the community. They can be found coaching youth sports teams, volunteering as first responders, and serving on local boards.

### Thank You

On April 10, when you flip a light switch, power up your computer, turn on your TV, or perform any of the countless tasks that electricity enables you to do, take a moment to appreciate the linemen who make that possible.

# CAN YOU HELP US FIND THESE FORMER CLARK ELECTRIC MEMBERS?

The following members have capital credit refunds due them, but their whereabouts are unknown. If you know the address of anyone on this list, please let us know at Clark Electric Cooperative, 1209 W Dall-Berg Rd., P.O. Box 190, Greenwood, WI 54437, (715) 267-6188 or (800) 272-6188. If we cannot find these members, the unclaimed capital credits will be forfeited and assigned to the Federated Youth Foundation to be used for scholarships and other educational programs.

## Attention High School Students!

Don't miss the chance to join us for the  
2023 Youth Leadership Conference –  
You will get a glimpse of college life at UW-Stout

It's that time of year when Clark Electric Cooperative is looking for students from local high schools to represent us at this year's Youth Leadership Conference to be held on the campus of UW-Stout July 11–13, 2023.

The WECA Youth Leadership Conference is a great opportunity for students to develop and enhance their leadership potential. The event is sponsored by Wisconsin electric cooperatives and is designed to develop leadership skills while teaching the purpose, operation, and scope of cooperative business.

The event features leadership seminars lead by nationally acclaimed speakers and presenters, team-building exercises, and many other fun activities. Join students from your neighboring schools learn what makes the cooperative business model different and successful.

Clark Electric has sponsored students to this event since its inception. The Youth Leadership Conference is a fun and educational event, designed by students who were elected by their peers at the previous year's conference to serve on the WECA Youth Board.

There is no cost to the student for attending. Registration and travel expenses will be covered by the cooperative. If you are going to be a sophomore or a junior in high school this coming fall and would like to be a sponsored representative for Clark Electric Cooperative, contact your FFA or FBLA advisor for a co-op registration form by May 5, 2023. You may also contact Tracy Nelson, administrative assistant, at 715-267-6188 or 1-800-272-6188.
